Koshu

Koshu is a white wine grape variety that has been grown primarily in the Koshu Valley in Yamanashi Prefecture, Japan.

Koshu was first cultivated in the Caucasus Region in Asia Minor and came to Japan more than 1,200 years ago, via the Silk Road through China.

When winemaking started in Japan in 1874, it quickly became not only the main, but also the most important variety.

Skin Contact White Wines

These wines were allowed some maceration time, made a little bit like a red wine.

The contact of the grape juice with the skins before or during fermentation promotes extraction of flavours & phenolic compounds that give these wines an extra dimension of colour, body, flavour and texture.

They are great food wines, slightly grippy, aromatic & very flavoursome!
